Environmental Impairment Liability Program

EIL Policy Form

Freberg Environmental has been underwriting pollution insurance for over 25 years. When it comes to covering new or pre-existing conditions, our recently updated Environmental Impairment Liability (EIL) form is well suited to address operational or transactional risks and is highly customizable. The many built-in coverage enhancements reduce the need for many broadening endorsements or manuscripts. The form can cover stand-alone EIL, or can be paired with General Liability, Contractors Pollution and/or Professional Liability for many classes of business.

At FEI we're known for 'fast, friendly and knowledgeable service' and our EIL underwriters are experts in their field—most with many years of experience in underwriting, environmental consulting, industry and regulation. Our appetite spans from airports to zoos and most everything in between. Our experience and capabilities, coupled with an industry-leading policy form, makes FEI your go-to market for fixed-site risks.
